

AFO 127 – Scan barcodes for SDI

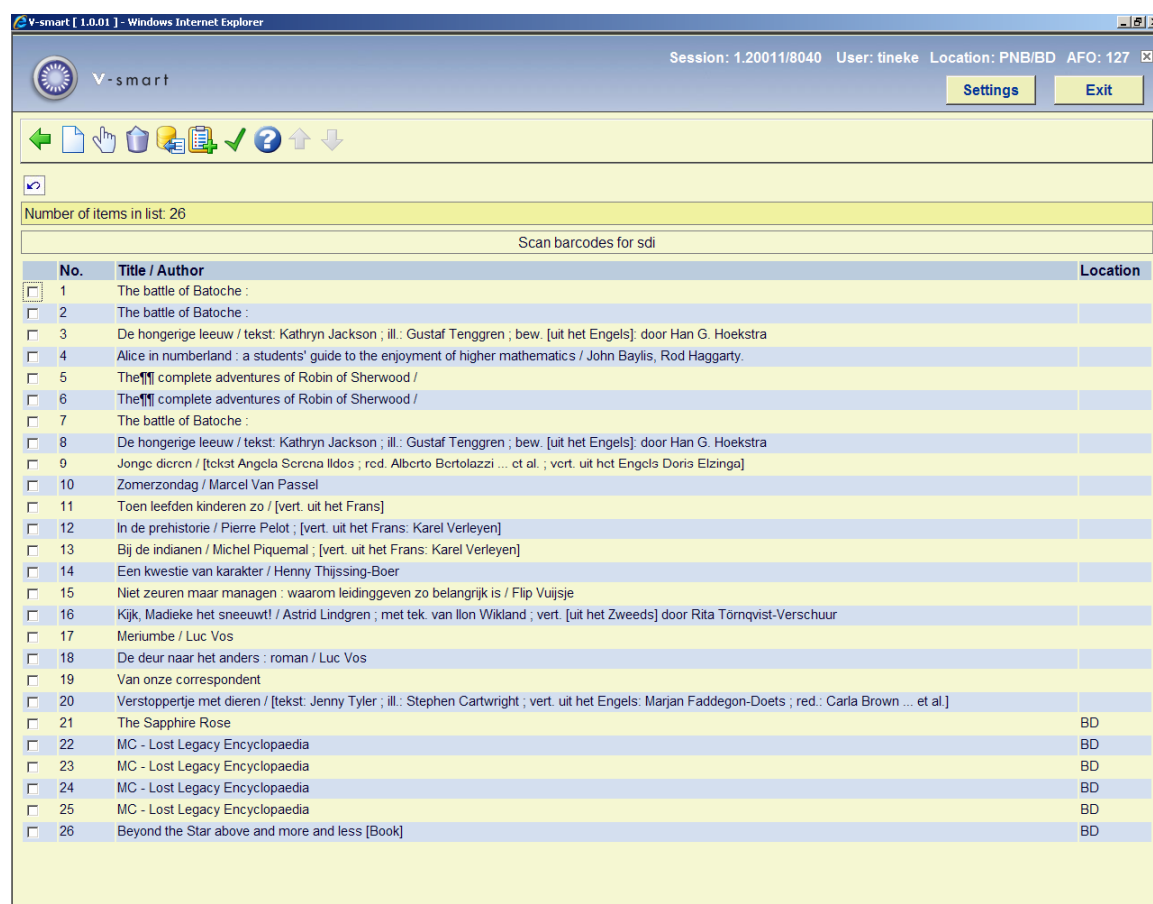

127.1 Introduction

Apart from having the system automatically check new titles for SDI, you can choose to scan new titles. The scanned barcodes will then be compared with existing SDI profiles of users. In this way you are in control of which titles are eligible.

Use Scan barcodes for SDI, AFO 127, to add, modify, and delete items from the SDI list, and set the availability date to the current date for the items in the SDI file.

The Scan barcodes for SDI, AFO 127 works in conjunction with SDI parameters AFO 651.

After choosing this AFO an overview screen with titles will be displayed:

The screenshot shows the V-smart web application interface. At the top, the session information is displayed: "Session: 1.20011/8040 User: tineke Location: PNB/BD AFO: 127". There are "Settings" and "Exit" buttons. Below the navigation bar, a message states "Number of items in list: 26". The main content area is titled "Scan barcodes for sdi" and contains a table with the following columns: "No.", "Title / Author", and "Location".

No.	Title / Author	Location
<input type="checkbox"/> 1	The battle of Batoche :	
<input type="checkbox"/> 2	The battle of Batoche :	
<input type="checkbox"/> 3	De hongerige leeuw / tekst: Kathryn Jackson ; ill.: Gustaf Tenggren ; bew. [uit het Engels]: door Han G. Hoekstra	
<input type="checkbox"/> 4	Alice in numberland : a students' guide to the enjoyment of higher mathematics / John Baylis, Rod Haggarty.	
<input type="checkbox"/> 5	The complete adventures of Robin of Sherwood /	
<input type="checkbox"/> 6	The complete adventures of Robin of Sherwood /	
<input type="checkbox"/> 7	The battle of Batoche :	
<input type="checkbox"/> 8	De hongerige leeuw / tekst: Kathryn Jackson ; ill.: Gustaf Tenggren ; bew. [uit het Engels]: door Han G. Hoekstra	
<input type="checkbox"/> 9	Jonge dieren / [tekst Angela Scerna Ildos ; red. Alberto Bertolazzi ... et al. ; vert. uit het Engels Doris Elzinga]	
<input type="checkbox"/> 10	Zomerzondag / Marcel Van Passel	
<input type="checkbox"/> 11	Toen leefden kinderen zo / [vert. uit het Frans]	
<input type="checkbox"/> 12	In de prehistorie / Pierre Pelot ; [vert. uit het Frans: Karel Verleyen]	
<input type="checkbox"/> 13	Bij de indianen / Michel Piquemal ; [vert. uit het Frans: Karel Verleyen]	
<input type="checkbox"/> 14	Een kwestie van karakter / Henny Thijsing-Boer	
<input type="checkbox"/> 15	Niet zeuren maar managen : waarom leidinggeven zo belangrijk is / Flip Vuijsje

<input type="checkbox"/> 24	MC - Lost Legacy Encyclopaedia	BD
<input type="checkbox"/> 25	MC - Lost Legacy Encyclopaedia	BD
<input type="checkbox"/> 26	Beyond the Star above and more and less [Book]	BD

Options on this screen

Add items to list: Add items to the list by scanning their barcodes.

Delete item from list: Click this icon to remove selected items from the list.

Copy from SDI file: Copy items from the SDI file to the list. You can specify a period and an institution/location.

Add records to list: Add titles by entering the record ID on the presented form.

Confirm availability: displays a message asking you to confirm that you want to close the window and make the items in the list available for SDI. Click **OK**. The system sets the availability date to today's date for all the SDI items listed in the Scan barcodes for SDI window, closes the window, and deletes all the SDI items from the list. If you leave the screen with the **Back** button, the availability date will not be set and the list will still be there when you return to AFO 127.

After choosing **Add items to list**, the following form will be displayed (the form for **Add records to list** looks similar to this):

The screenshot shows a web browser window titled "V-smart [1.0.01] - Windows Internet Explorer". The page header includes a logo, the text "V-smart", and session information: "Session: 1.20011/8040 User: tineke Location: PNB/BD AFO: 127". There are "Settings" and "Exit" buttons in the top right. Below the header is a navigation bar with a back arrow and a question mark icon. The main content area is titled "Add Items for SDI" and contains a text input field labeled "Add items for sdi". Below this is a "Barcode" label and an empty input field. The main part of the form is a table with 20 rows and 4 columns: "No.", "Barcode", "Title", and "Location". The table is currently empty.

Procedure:

- Enter barcodes manually or scan them. The title details will be added automatically by the system when moving to the next field. (for **Add records to list** manually enter record ID numbers).
- Click on the **Back** button to leave this screen.
- The items will now be shown in the list.
- Choose **Confirm availability** to set the availability date for all items in the list to today.

Note:

This procedure overrides the availability dates that may have been previously specified automatically by the SDI feature.

- **Document control - Change History**
